

# ANDROPECIA

ANDROPECIA offers the right compounds for prevention and treatment of Alopecia via MESOTHERAPY .

MESOTHERAPY is an excellent and non-invasive technique for prevention and treatment for Alopecia .

The compounds that are used in ANDROPECIA are all **NaTuRaL** hair growth stimulants and recommended products to counteract the problem of Hair Loss by reducing the production of dihydrotestosterone by inhibiting the enzyme 5 alpha-reductase .

ANDROPECIA is a mixture of Zinc, Azelaic acid, Pantothenic acid, Biotin, and Pyridoxine .

Since **ANDROPECIA** contains all **NaTuRaL** ingredients there are no hormonal side effects.
