This 4 hour workshop is open to: **Doctors, Nurses, Health Practitioners & Clinicians.**

ADVANCED TECHNOLOGY & SOLUTIONS FOR OPTIMUM SKIN CARE RESULTS.

You are cordially invited to attend this 4 hour hands-on workshop to learn advanced techniques for skin rejuvenation and anti-ageing.

Doctors, Nurses, Health Practitioners & Clinicians are invited to join leading international experts to discover advanced techniques for facial rejuvenation.

You will be introduced and trained in the following advancements:

Glykopeel® is a dermatological, chemical, superficial & complete anti-ageing peeling system which visibly improves the cutaneous appearance without any side effects. It is indicated to treat: wrinkles, loss of elasticity, lack of radiance, hyper pigmentation, microcystic acne & skin irregularities...

Nano Technology – The advanced technology of nano emulsion to deliver ingredients including: hyaluronic acid, peptides & growth factors for skin needling treatments.

Disk Therapy Technology – An innovative, intradermal delivery system, which when combined with active cosmetic ingredients, penetrates to deeper dermis layer and stimulates collagen production. It is indicated for skin rejuvenation, pigmentation, acne scarring, skin tightening, fine lines and wrinkles.
